Archiproducts Design Awards 2017: the Winners

Leído 2355 veces

07/11/2017 - The winners of the Archiproducts Design Awards 2017 are 90 and today we are happy to disclose their names!

With this second edition, the award celebrating the state-of-the-art of international design, reconfirms the great success of the first edition. This year an even wider participation: more than 600 submitted products by 300 brands coming from more than 15 countries all over the world. Each of them of representing high quality.

Estratto:

Last but not least, the category **Building** confirms its recovery trend and this year awards **Volteco** for AMPHIBIA, the self-repairing multilayered waterproofing membrane which reacts at the contact with water. The solutions for the steel-clad entrance doors have been appreciated: the MONOLITE RM proposal by **Bauxt**, flush to the wall, the one in aluminium and carbon fiber by **Interno Doors**, with a rotational movement, and the pivoting steel-clad doors in wood and zinc-coated plate by **Silvelox**.
